OVER 1,000 IN USE

THE BRUSTON AUTOMATIC ELECTRIC LIGHTING PLANT gives you the same continuous service of light and power in your country home, hotel or institution as you have in the City of New York.

The plant is absolutely automatic, starts itself, regulates itself and stops itself. Practically the only attention required being to fill the fuel and oil tanks.

It will generate current at less than half what it would cost you in the city.

This plant has obtained the highest awards at the leading expositions in England, Canada and France, has been installed in the houses of many of the leading people of the world and has never been replaced by another plant or taken out as unsatisfactory.
